

Very well explained lecture thank you dr 😊

I love dr's teaching method

Dr Shamsi 👍

We love Dr. Shamsi

She is very responsive and initiative in finding ways to make the class more fun yet still easy for students to understand the topic

she is kind and inspire me to succeed in the future

Dr, please pray for all year 2 students to achieve 4 flat for this semester,Aameen Insyallah.

The explanation is very clear

Looking forward to more lectures with Dr. Shamsi.

Dr explained in the most understandable words!

She is a very nice lecturer, full of patience, and has good skills in delivering her idea and knowledge, which makes her lectures so easy to understand n always fun.

Thank you Doctor

More and more quizziz!!! 😊

I like how Dr shamsi teaching us patiently

Thank you Dr!

I think that your slide are well-prepared with enough information but student that are new to anatomy will lost at some point in lecture because it is not easy to memorise. Maybe can find more method for the student to understand better and faster. Anything else is good when the student do the revision again we will understand.

Perhaps through online classes, it would be more difficult to get student interaction so i would suggest not to wait for students' response as it might prolong the lecture. (Unless a student's response is deemed appropriate or needed.)

I love ur lecturess so much. <3

Tq dr

thank you very much dr for your teachings❤️your explanations are all clear :)

I don't have any comment but just wanna say that you were calm and collected during the lecture that I understand your lecture clearly. Thank you Dr

She's a great lecturer :)

I enjoyed her lecture!
