Welcome to Anatomic Pathology

- For the first four weeks (21.2.2021–18.3.2021) - Teaching & learning will be using the online medium (WebEx, Microsoft Teams meet, Google Meet) - mainly on lectures, seminars & journal clubs.
- Another five weeks (15.8.2021-14.10.2021) -Teaching and learning will be HYBRID, focusing on practical, slide sessions, hands-on and lab-based teaching (subject to change). Within these weeks, you have to fulfil the requirements as stated in your logbook
- FNAC observation is only on Thursday. Please inform your seniors that you need to observe FNAC and frozen section procedures (as these cases are only by appointment). This also applies to post-mortem observation.
- For the grossing/slide reporting sessions, you shall join your seniors reporting cases with the specialists. You are advised to arrange among yourself to be on-call with the seniors (suggestion: 1 person/day) so that you will have hands-on experience in grossing and reporting on-call slides.
- For journal club presentation, please discuss with your respective supervisor the topic of article selection. The article is preferably on updates of pathology. The time allocated for each student is not more than 30 minutes, including a Q&A session.
- You are encouraged to involve in all departmental activities, including CPC/MDT. If any slots in the timetable have been cancelled, please use that time to do grossing/slide reporting or slide seminar.
- Do not hesitate to contact any lecturers if you are having problems with anatomic pathology. We are here to help you.
- **TO ALL LECTURERS, YOU MAY SWAP YOUR SESSION AMONG LECTURERS IN CASE YOU ARE NOT AVAILABLE. THE INTERDEPARTMENTAL CPC SESSION CAN BE USED FOR LECTURES/SLIDE SEMINARS IF NO CPC REQUEST.**

We hope you will have a pleasant attachment.

Dr Nur Asyilla Che Jalil
MPATH 1 Coordinator
Department of Pathology
